

# Plenty of Love

Mic Donet

Here I go  
Here I stand  
Those who thought I would give up  
Here I am  
Share my soul with you  
Share my everything  
From the bottom of my heart I sing

I will hold on  
I'll proceed  
Who can stop the music running through those veins  
They may talk about me  
Sure as they please  
Can't nobody bring me down to my knees

Cause I got love  
I got plenty of love, love, love, love, love  
I got plenty of love, yes I do  
Take it, take it, take it, I got enough

I got joy  
I found peace  
I got all the riches I could claim within me  
Share my my life with you  
Share my everything  
Take as much as you can get cause it's free

I'm a warrior without bearing no arms  
Can't nobody do me any harm  
Don't need no sword to fight  
Nor a Horse to ride  
I'm connected to an everlasting source of light

I got love, yes I do  
I got plenty of love, love, love, love, love  
I got plenty of love, yeah  
Take it, take it, take it, I got enough
