

What I've Got In Mind

[Billie Jo Spears](#)

There's a million things that we could do this evening,
with all the night life, and the silver screen,
or we've got time and we could take the town in,
or take a fast jet baby down to new orleans

chorus

but what i've got in mind is a small cafe out of the way
oh but baby lets don't stay, no we'll be too late,
what i've got in mind is to disapear, or maybe just stay right here,
oh too tell the truth, what i've got in mind is making love to you.

Well i confess, and you can find me guilty,
i'm a selfish lover, i can't deny
but i love you and i dont want to share you,
with any nightlife, or darling any others eyes,

cos what i've got in mind is a small cafe out of the way
oh but baby lets not stay, no we'll be too late,
what i've got in mind is to dissapear, or maybe just stay right here,
oh to tell the truth what i've got in mind is making love to you
oh to tell the truth what i've got in mind is making love to you
