

# April

## Zarkoff

April, how could  
I not have seen  
April, you coming  
April how could I've  
Worn inappropriate clothing?  
April, all that careful stepping,  
Rounding of my soul  
And now your rain  
April, I feel you leaving  
I don't know what silence means  
It could mean anything  
April, won't you answer me?  
These days just seem to crush me

Hatching, collapsing, tumbling down  
April, what if I drown?  
I drown?  
April, I see you leaving  
I don't know what silence means  
It could mean anything  
I dream  
I dream  
April, April  
Did I want you?  
Did I want change?  
April, your rain overcomes me
