## **Twisting**

## **They Might Be Giants**

She set your goldfish free And now she's sighing Blew out your pilot light And made a wishShe doesn't have to have Her db's record back now But there's not a lot of things That she'll take back(She wants) She wants to see you again (She wants) She wants to see you again Slowly twisting (Twisting, twisting) In the wind (Twisting) Twisting, twisting (Twisting, twisting) In the windShe's not your satellite She doesn't miss you So turn off your smoke machine And marshall stackShe doesn't have to have Her young fresh fellows tape back now But there's not a lot of things That she'll take back(She wants) She wants to see you again (She wants) She wants to see you again Slowly twisting (Twisting, twisting) In the wind (Twisting) Twisting, twisting (Twisting, twisting) In the wind(She wants) She wants to see you again (She wants) She wants to see you again Slowly twisting (Twisting, twisting) In the wind
