

# Angels Calling (feat. Slaine)

## Street Dogs

### Verse 1

Life was easy, Didn't have a care  
Then you came along, and i became aware  
Of all my darkness, all of my pain  
Maybe you should go back, from where you came

### Chorus

Now i hear the angels calling  
I hear them calling my name  
Don't mind that whiskey bottle  
Don't mind my ball and my chain  
Running on empty, and i'm losing ground  
Oh i hear the angels keep calling

### Verse 2

I've been a beggar, I've been a thief  
I became the man that i didn't want to be  
Now i can't hide or act like i never knew  
Once i looked inside and saw the ugly truth

### Chorus

Now i hear the angels calling  
I hear them calling my name  
Don't mind that whiskey bottle  
Don't mind my ball and my chain  
I'm running on empty, and i'm losing ground  
Oh i hear the angels keep calling

I'm running on empty, and i'm losing ground  
Oh i hear the angels keep calling

### Bridge

I felt the love and i heard the haters  
The curse words and the slurs regurgitated  
I got this dirt on my shirt that occurred related  
To this blood on my hands and the murder rate is  
By this nine on my spine where my vertebrae is  
I've been screaming at the skies no one heard the prayers  
There's a demon in disguise and my certain fate is

From jump only getting lumped with the perpetrators

I'd rather die with my boots on  
Wear them right into the fucking grave  
Ooh i know there's gotta be a better way

I'm running on empty, and i'm losing ground  
The one thing i know will never let me down  
And i hear those angels calling  
I hear them calling my name  
Oh i hear the angels are calling  
Oh i hear the angels keep calling  
Oh i know those angels are calling
