

# Dance With the Vamps

## E-Rotic

I feel the moon of Transylvania  
Shining into my heart  
I hear the sound of creatures in the dark  
I feel the lightning of wildest mania  
Striking through the night  
Need your arm to hold me oh so tightA dance with the vamps  
Makes my blood freeze  
Lost in my secret fantasies  
Baby release me  
Kiss me  
I wanna feel the pain  
A dance with the vamps  
Sets my heart free  
And burning crosses I can see  
Baby please thrill me  
Kill me  
Make my heart go insaneI feel your lips so warm and tender  
Kissing my fears away  
I feel your hot blood mixing up with mine  
I know you're real baby you're no pretender  
And I want you to stay  
Stay with me until the break of dayDance with the vamps  
Kiss me  
Kill me  
I wanna feel the pain  
Dance with the vamps  
Makes my blood freeze  
Lost in my secret fantasies  
Baby release me  
Kiss me  
I wanna feel the pain
