

# Outcast

## I Prevail

We are the lost cause, with nothing left to lose  
Crossing every line, we're breaking every rule  
Forget your future, and fuck your rumors  
Another generation built from underneath We are the outcast, but we're where we belong  
You tried to shut us up but we're still singing this song  
We are the outcast, made this way from the start  
Twisted and deranged the ones you fear in the dark  
We are the, we are the, we are the outcast  
We are the, we are the, we are the outcast  
We are the, we are the (Outcast) We are the nightmare, the voice in your head  
Creeping up behind, we're breathing down your neck  
So fuck your future, and fuck your rumors  
We're everybody that you never thought we'd be We are the outcast, but we're where we belong  
You tried to shut us up but we're still singing this song  
We are the outcast, made this way from the start  
Twisted and deranged the ones you fear in the dark  
We are the, we are the, we are the outcast  
We are the, we are the, we are the outcast  
We are the, we are the (Outcast) We were never what you wanted us to be  
A generation built from underneath  
C'mon We are the same, united by one name  
We are the same, united by one name  
Outcast, outcast, outcast  
United by one name We are the outcast, but we're where we belong  
You tried to shut us up but we're still singing this song  
We are the outcast, made this way from the start  
Twisted and deranged the ones you fear in the dark  
We are the, we are the, we are the outcast We are the same, united by one name  
We are the same, united by one name  
(Outcast)
