

# Christmas Time

Andy Davis

Salvation Army Santa clause rings his bell when the pennys tossed and I dont know why but I feel lost  
Two lovers shopping for a Christmas tree kiss each other when they cross the street and Im feeling like the jokes on  
me  
Ooooooh this sneaks up on you like cold weather  
Ooooooh whether or not youre ready it comes  
Yeahhh I dont want to be lonely on the most wonderful time of year  
Ohhhhhh but Christmas time is here  
I woke up to find across the street a snowman laying in the manger scene and  
Charlie brown playing on TV  
So while people were taking their winters nap I grabbed my coat and a stocking  
cap, went outside to think about what we have  
Ooooooh this sneaks up on you like cold weather  
Ooooooh whether or not youre ready it comes  
Yeahhh I dont want to be lonely on the most wonderful time of year  
Ohhhhhh but Christmas time is here  
Walked outside started thinking about what we had  
Oh that bell I rang  
the bottle of wine we got back together  
I toast them both  
Decembers you remind me  
now Im stuck  
yeah Ive been by myself  
the view from the top  
been thinking about the room that I painted  
the shelves  
I built with my own hands  
after how long you waited  
took me back again  
in that choir we heard  
in that catholic church  
all the best and the worst  
it heals and it hurts  
to remember  
it heals and it hurts to remember  
ohh but I want to  
ohh just like that time  
the ice  
covered up the road and the driveway  
and you held my hand  
by that hospital bed  
the things that you told me  
Im hanging on to them  
Im hanging on to them
