

# Numb

Sia

I saw you cry today  
The pain may fill you  
I saw you shy away  
The pain will not kill you You made me smile today  
You spoke with many voices  
We traveled miles today  
Shared expressions voiceless It has to end Living in your head  
Without anything to numb you  
Living on the edge  
Without anything to numb you It has to end to begin Began an end today  
Gave and got given  
You made a friend today  
Kindred soul cracked spirit It has to end to begin Living in your head  
Without anything to numb you  
Living on the edge  
Without anything to numb you It had to end to begin Living in your head  
Without anything to numb you  
Living on the edge  
Without anything to numb you Living in your head  
Without anything to numb you  
Living on the edge  
Without anything to numb you It has begun
