I Will Always Love You

Troop

Day and night, on my mind
And every waking moment
I try to figure out a pathway back to you, youBreak me down in little pieces
Show me all the things you need
And I will make you special wish come true, yeahWhen things go wrong
You need someone
To help you see them through(I will always)
I will always love you
When you need someone to stand beside you
(I'll hold you)
Hold you baby(With this ring)
(I pledge)
I will be the best
(I will be the very best)
(I will always)Our love will
Stand the test of time
And in you
I'll find the reason to keep tryingBaby, let me touch you
I'm giving you a taste of heaven
I'm gonna love you 24/7
Let me show you, yeah'Cause, I love you
(Love)
Always
I love you
(Hold you)
Hold you, baby
Day and night(With this ring)
(I pledge)
I will be the best
(I will be the very best)
(I will always)Take my body for you pleasure
This will be the night I treasure
Forever as my memory of you
Close your eyes and make three wishes
Take my hand and realize
This time I'll be the very best for youWhen things go wrong
You need someone
To help you see them through(I will always)
I will always love you

When you need someone to stand beside you
(I'll hold you)
Hold you baby(With this ring)
(I pledge)
I will be the best
(I will be the very best)
(I will always)(I will always)
I will always love you
When you need someone to stand beside you
(I'll hold you)
Hold you baby(With this ring)
(I pledge)
I will be the best
(I will be the very best)
(I will always)(I will always)
I will always love you
When you need someone to stand beside you
(I'll hold you)
Hold you baby(With this ring)
(I pledge)
I will be the best
(I will be the very best)
(I will always)
