

It Ain't Easy

[Jason Aldean](#)

I walk a hard line, winding road
Don't really know where it's gonna go
Seems like trouble's my best friend
Soon as I get out, I'm back in again
It's a wonder, I ain't all alone[Chorus]
 'Cause it ain't easy
 No, it ain't easy
 It ain't easy
Lovin' me Don't know why I do the things I do
 Must be I love to light the fuse
 Stand back and watch it crash and burn
 And turn into ash
 Just like it ain't nothing
She ain't something I can lose[Chorus] She's the brick by brick that built this house
 Without her it would all fall down
Somehow she finds the faith and the strength to believe
Don't know why she sticks around[Chorus: x2]
