

Flying Home (brenda's Song)

Chantal Kreviazuk

Its hard to let you go
You've always let me in
And helped with all the endings
And you know where to begin

I need you here for me
Cause you always know my heart
I can't believe we'd change
Or have to be apart

[Chorus]

But if you've seen the love that's in her eyes
Then everything is good
And if you know the way she felt inside
She's flying where she should
I never believed we'd ever live to see
An angel being born and flyin' home

Its good to know your laugh
And you'll always hold my hand
And watch from up in heaven
And always understand

We'll take you down the road
And in everything we do
We'll know how much you love us
A soul that's kind and true.

[Chorus]
