Advisory - the following lyrics contain explicit language:

Tossin', turnin', dreams of murder, someone's killin' me
It changes, there's night, summer on a killin' spree
All done, cold blood, wakin' up in cold sweats
This is such a cold world, my conscience getting death threats
Shadows chokin' me, my last breath lets out my
body
It's a conspiracy, my mind
And my body's not really down with me
Me against the whole world, it's a little deeper
Me against myself, I fight the grim reaper
Swing, sickle, I got my glock bust rounds off
Demented, schizophrenic
I know this sounds off to you, I do not lie
When I doze off spirits hope I die, whatever
Angels waste they time, they work together
Scheme, they plot on me 'cause I'm son of man
I hear voices from a dog like son of Sam
Don't give a damn if the bullets fill me
I don't wanna live, I hope they kill me
Put me out my misery, my life in misery
I kill all my enemies, 'cause I live comfortably
Those who seek me are called wise men
Or either wise guys, I pray you comprehend
And realize I'm condemned
No rest, homicidal dreams
My cell mate, all he do is scream
Out loud how he wants to go home
That's funny, I'm here all alone
Locked in a single cell
His back's bleedin', he's cold as hell
And I'm hopin', they turn on some heat
I call the CO to bring some extra sheets
Whered he go? He walk through walls
One halls I pray he teach me
They don't see him at the health try to reach me
I say, "Please see how he feels"
They said "He's alright, but he's not real"
Evaluation say I suffer from depression
Hallucination, self [Incomprehensible] what they guessin'
I'm here doin' years I'm stressin'
Medicate me, state me, want me to rest
In Don't take it 'cause he said that won't be bested

He said, I need his help and he needs me
Nigga you walk through walls, go home you're freeHome, that was far and he was turned off
'Cause his wings was burned off
A lesson was learned, communicated with one
I was chosen 'cause I've got sunAnd I'm the retarded one
