Smile

The Color Red

You wanted to feel safe
You wanted me to smile
In pictures you wanted me to smile
Anything you said was alrightI remember days were going fine
I can tell the day that you'd been mine
All the time and now it's overrated
And I can smell the day that you've been all mineAll the time
I can feel the in between
Taking it too far
Make it in between
Anyone would see you go for that
But there was nothing to it
