

# Get It Girl

Charlie Farley

Intro:.

Look at that backwoods beauty, drives a super duty.  
Came here with a couple of cuties, looking like stars from movies.

I bet my buddies, I could get a number or two.

They laughed and I got up now I'm at the corner booth..

Our conversation started easy then went to chasing whiskey with beer

Went from talking our occupations to talking shi\*.

She is talking alot saying what shes got to get crazy in this spot

Well maybe, but baby you got to shoe me,cause I have never been much for talk (now)

Chorus:...

Look at that big Ole Truck, that's rollin up

Country girl in it talking toigh,I'm about to call her bluff

I bet my buddies I could out mud her, cause shes to cute

They laughed, and I got up after finishing my brew

I walked up and said , what's up with it

I can go further than you, and (?)what she did at the bar,she's doing it here too

Yeah, she talking alot saying she's got what it takes to crazy in this spot, well maybe , but baby you got to show  
me cause I've never been much for talk

So.

Chorus:..

She got it in the bar just like she got it in the mud.

She might be talking awful,but guaranteed to bavg it up.

If you say get it,get it, get it

She will say get it , get it good.

She can do anything you can do better

Cause the Chick is from the woods!!
