Mr. Wallace Wood
So life's not very good?
But it's real
So please just let me know
If you're ready to go
If it's realHello kid Cobain
I can feel the pain
'cos it's real
So please just let me know
If you're ready to go
If it's realIf it's tragic
You're feeling low
You're dying to leave the show
A word before you go...Now turn around
And waltz away
And dream of something else
Now turn around
Your point of view
And look inside
A new kaleidoscope
Dream the calliope
End the anxiety
Then when you get there
You will be somewhereDiane Linkletter
Do you feel better?
'cos it's real
So please just let me know
What you're wanting to say
Is it real?Marilyn Monroe
Is it to be free?
Robert E. Howard
Is it hard to be?Now turn around
And waltz away
And dream of something else
Now turn around
Your point of view
And look inside
A new kaleidoscope
Now turn aroundNow turn around

And waltz away
And dream of something else
Now turn around
Your point of view
And look inside
A new kaleidoscope
Dream the calliope
End the anxiety
Then when you get there
You will be somewhere
