When It's Over

[Julie Roberts](#)

Did you put my things away
In a box, get 'em out on a lonely day
Well, I put your stuff in a bag
Set it by the curb
With the rest of the trash
When it's over, it's really overYou're back into me
Why? baby can't you see?
That it ended when we said goodbye
Oh, what a tragedy
You all hung up on me
Ain't lonely on the other side
When it's over it's really overHow long'd you think I'd wait
Just killin' time, what a crime
Wasting all my days
So don't come crawling back to me
Honey please
That won't change a thingYou're back into me
Why? baby can't you see?
That it ended when we said goodbye
Oh, what a tragedy
You all hung up on me
Ain't lonely on the other side
When it's over it's really overI'm sorry that the nights got colder
Yeah, they get colder when it's over
Baby, you can't cry on my shoulder
Can't do it no more
It's really overYou're back into me
Why? baby can't you see?
That it ended when we said goodbye
Oh, what a tragedy
You all hung up on me
Ain't lonely on the other side
When it's over it's really over
