Love Generation

Love Generation

[Intro]
Oooh
Haa
let's spread the word
Love love generation
Oooh yeah
RedOne[Verse]
Feels like the world, is in reverse
Changes the sound, of all the pretty mockingbirds
I wasn't born, to follow rules
And I should know, I wasn't born to act a fool[Bridge]
I need somebody to love me, you need somebody too
Don't you wanna dance with me, I wanna dance with you[Chorus]
'Cause we're the love love love love love generation
We're gonna keep keep spreading the word, in every nation
'Cause we're the love love love love love generation
We're gonna keep keep spreading the word, in every nation[Verse]
The world is mine, as much as yours
So make it fun, if you don't look you never see
The heart is young, the soul is free
The floor is hot, makes you wanna move your feet[Bridge]
I need somebody to love me, you need somebody too
Don't you wanna dance with me? i wanna dance with you[Chorus]
'Cause we're the love love love love love generation
We're gonna keep keep spreading the word, in every nation
'Cause we're the love love love love love generation
We're gonna keep keep spreading the word, in every nation[interlude]
Let's make the world, spinnin' in the right direction
Yeah yeah, yeah yeah
Let's make the world, spinnin' in the right direction
Yeah yeah, yeah yeah[Chorus]
'Cause we're the love love love love love generation
We're gonna keep keep spreading the word, in every nation
'Cause we're the love love love love love generation
We're gonna keep keep spreading the word, in every nation
'Cause we're the love love love love love generation
We're gonna keep keep spreading the word, in every nation
'Cause we're the love love love love love generation
We're gonna keep keep spreading the word, in every nation

We're gonna keep spreading the word
Yeah
