

Turned Away

Ocean

Got the feeling that I love you
Got the feeling that I love you
It's hard to give it Following not that time,
not that time for no one
I never tried to see
If I was falling for you Following not that time,
not that time for no one
I never tried to see
If I was falling for you
Got the feeling that I love you
Got the feeling that I love you
It's hard to give it When you caught my eye, you turned away
When you caught my eye, you turned away
When you caught my eye, you turned away
When you caught my eye, you turned away
When you caught my eye, you turned away
When you caught my eye, you turned away All the way
the feeling inside that escape you
so you turn away
it's the places that I take you when you feel this way
but I know it's not original to say
When you caught my eye, you turned away
When you caught my eye, you turned away
When you caught my eye, you turned away
When you caught my eye, you turned away
