Good Time Girl

DMX Krew

eyes wide, you saw me in a magazine
new sight, thinking of what might have been

thinking how your love should've been so much more strong and true
you forgot it was always me who was never loving you

and don't you give me your telephone number girl just because you smell success
i never really needed you and now i want you even less

you're just a good time a girl (just a good time girl)
you wanna climb up on my back (just a good time girl)
you heard my voice on the radio (just a good time girl)
and now you wish you'd never let me go (just a good time girl)
you're just a good time girl

late night i'm spinning in the dj box
deep house electronic music shocks

nodding up on my favorite beats while the people shout for more
i can see your smiling face as i look out on the floor

but don't you give me your telephone number girl just because you smell success
i don't mean a thing to you and you mean even less

you're just a good time a girl (just a good time girl)
you wanna climb up on my back (just a good time girl)
you heard my voice on the radio (just a good time girl)
and now you think you'll never let me go (just a good time girl)
you're just a good time girl

"hello"
"hi ed how's it going"
"oh it's you, i thought i told you to leave me alone"

so don't give me your number girl just because you smell success
you never mean a thing to me and i want you even less

you're just a good time a girl (just a good time girl)
you wanna climb up on my back (just a good time girl)
you heard my voice on the radio (just a good time girl)

you think you love me but i'll let you know (just a good time girl)
you're just a good time girl

(just a good time girl)
(just a good time girl)
you're just a good time girl
(just a good time girl)
(just a good time girl)
you're just a good time girl
(just a good time girl)
(just a good time girl)
you're just a good time girl
(just a good time girl)
(just a good time girl)
you're just a good time
