The Hole In Me

Blackfield

the hole in me
I cannot reach
the one who bleeds
the hole in me
please set him freethe hole in me
that no one sees
the hole too deep
inside of mewho will never die
treat me tonight like a movie star
kill all my loneliness
what have I done
always surrounded by girls like you
kill all my lonelinessthe hole in me
born with me
that never sleeps
it's killing me
what have I done
