

# I Cried

## Robert Plant

I cried, babe, oh, I cried  
I saw you in a movie or was it on my wall?  
I never dreamed you'd talk to me  
I never dreamed at all You fitted very strongly  
You might have changed my life  
Oh, I was very young then  
You came along just right This is what I cried, oh, oh, oh  
Now you know I cried, oh, oh, oh I walked the stellar ceiling  
My feet were off the ground  
You talked of something permanent  
When saturday comes round This is what I cried, oh, oh, oh  
This is why I cried, woh, oh, oh  
This is what I cried, woh, oh, oh  
Now you know I cried Kisses gone crazy  
Come on, tease me 'till I scream  
Promise is a maybe  
Running through my dream It's what I hear you whisper  
Soft across my room  
Chase my whole confusion  
Rescue from my gloom This is what I cried, oh, oh, oh  
Now you know I cried, oh, oh, oh Your eyes are where the summer lives  
In pools of quiet fire  
Come mess with my sincerity  
Go down on my desire, oh, oh, oh, oh I feast on your expression  
The smile that tells it all  
On my mind forever  
Forever on my wall This is what I cried, oh, oh, oh  
Now you know I cried, oh, oh, oh  
This is what I cried, oh, oh, oh  
This is what I cried
