

Gonzoes

Jaden Smith

i am the last one with intelligence
the swag comes with an elegance
that was blessed upon you
and thats just what you learn from these gents and fondue ill handle the bill but the rest is on you
Jaden is the true
yes I'm onto the nextess
msfts were so reckless
im on the stage care less what the set list is because you aint put me on it
and imma diss you if you try to put me on it
said i used to be so sweet put a cookie on it
jaden stop playing games im just playing hooky honest
but i just wanna be snug tight with the girl of my dreams to continue this love life cause
it took alot of pain to get here and this gonna be gone by this time next year
