Be Still

Kenna

Be still my love
Don't run from healing
My love don't runBe still my love
Don't run from healing
My love don't run, be stillIt's better to lose, better to fall
Than lose the flood that washes us away
It's better to radiate, never live in extremes
Than have a taciturn heart, a reticent heartBe still my love
Don't run from healing
My love don't runBe still my love
Don't run from healing
My love don't runBe still
Be still
Be still
Be still
Hey, my love
