

# Red Umbrella

## DJ Topcat

Sometimes life can get a little dark  
I'm sure I've got bruises on my heart  
Here come the black clouds full of pain  
Yeah, you can break away without the chains Your love is like a red umbrella  
Walk the streets like Cinderella  
Everyone can see it on my face So let it rain, it's pourin' all around me  
Let it fall, it ain't gonna drown me  
After all I'm gonna be okay, so let it rain You can wear your sorrow like an old raincoat  
You can save your tears in a bottle made of gold  
But the glitter on the sidewalk always shines  
Yeah, even God needs to cry sometimes Your love is like a red umbrella  
Always there to make me better  
When my broken dreams are fallin' from the sky Let it rain, it's pourin' all around me  
Let it fall, it ain't gonna drown me  
After all I'm gonna be okay, so let it rain  
Oh, let it rain, let it fall, I'm gonna be okay, so let it rain Let it wash my tears away  
Tomorrow's another day, yeah So let it rain, it's pourin' all around you  
Let it fall, it ain't gonna drown you  
After all I'm gonna be okay, so let it rain  
Oh, let it rain, let it fall, I'm gonna be okay So let it rain, it's pourin' all around me  
Let it fall, it ain't gonna drown me  
After all I'm gonna be okay, so let it rain  
Oh, let it rain, let it fall, I'm gonna be okay, so let it rain Oh, let it rain
