

# World Filled With Love

Craig David

Saw some pictures in the paper of a girl  
I'd met the day before  
I couldn't believe that hours later  
I had reporters knockin' at my door But I used to dream about the life I'm living now and  
I didn't think I'd miss those things from the past  
And I'm not afraid of leaving or letting go of what I had  
'Cause I realize that now there's no turning back 'Cause I'm a young heart living in a world filled with love  
So when tear drops fall from me like rain from above  
I can brush my troubles away, know that deep down inside  
I've got sun shinin' in my life I used to think I could get better  
My girlfriends always used to get me wrong  
Some just sent messages, love letters  
But those kinda feelings never lasted long 'Cause now the only love I find within a castle made of sand  
And when the tide goes out it's swept away  
Though I got my peace of mind and time is firmly on my side  
So through the battles I can safely say That I'm a young heart living in a world filled with love  
So when tear drops fall from me like rain from above  
I can brush my troubles away, know that deep down inside  
I've got sun shinin' in my life Troubles lie in its way  
Can't find another again  
Brush my troubles away 'Cause I mean I'm caught living in a world filled with love  
So when tear drops fall from me like rain from above  
I can brush my troubles away, know that deep down inside  
I've got sun shinin' in my life I'm caught living in a world filled with love  
So when tear drops fall from me like rain from above  
I can brush my troubles away, know that deep down inside  
I've got sun shinin' in my life
