

# Nature's Interface

## Haujobb

cities close to the seas calming objects to me trying to  
keep it in memory before all illusion leave a dead letter  
"first contact - growing fear" life lessons like old time  
movies casting a deadly spell - running scared a memory  
play cities beneath the seas brave new system those last  
legends wanted dead or alive the world sounds so small  
haunting passion duplicates minutes after noon attached  
visitor's choice the force of nature's interface  
homeworld fear inside colour of authority in suspicious  
minds redemption
