

# Someone You Used to Know

[Collin Raye](#)

I aint gonna lie to you and say it didnt hurt  
To see you with someone new and you wearing my old blue shirt  
But it didnt kill me until we said hello  
And I became someone you used to know Like a friend, like a fool, like some guy you knew in school  
Didnt we love, didnt we share or dont you even care  
I know we said we were through but I never knew how quickly I would go  
From someone you loved to someone you used to know Bet you didnt tell him bout those weekends at the coast  
Or how we used to argue bout who loved who the most  
Well I guess I won that one, cause I still need you so  
But to you Im just someone you used to know Like a friend, like a fool, like some guy you knew in school  
Didnt we love, didnt we share or dont you even care  
I know we said we were through but I never knew how quickly I would go  
From someone you loved to someone you used to know
