dark glasses

TJC

Let him be me... Let him be me...
Well, I am the yesman
I stay in line, I do what they tell me
Well, I am theirs but I'm still mine
I do what they tell me, I do what they say
Taking orders as they come, I do what they tell me
Always silent, never dumb
I do what they tell me, I do what they say
Behind my dark glasses
There's a man who has a point of view
Let him see... Let him see...

Behind my dark glasses
There's a man who has some feelings too
Let him be me... Let him be me...
Let him be me... Let him be me...

Never question wrong or right, I do what they tell me
Never argue, never fight, I do what they tell me
I do what they say
Pull my trigger, close my eyes
I do what they tell me
Act my part and tell their lies
I do what they tell me, I do what they say

Behind my dark glasses
There's a man who has a point of view
Let him see... Let him see...
Behind my dark glasses
There's a man who has some feelings too
Let him be me... Let him be me...
Let him be me... Let him be me...
Let him be me... Let him be me...
Let him be me... Let him be me...
Behind my dark glasses
There's a man who has a point of view
Let him see... Let him see...
Behind my dark glasses
There's a man who has his feelings too

Let him be me... Let him be me...
Behind my dark glasses
There's a man who has a point of view
Let him see... Let him see...
