

# West Virginia

## Maurice Ulmer

So you watch me float around  
For two weeks straight  
And the things you love will drown  
With the things I hate  
    Oh well  
    It's only for a while  
    Until I get things right  
    Just let me dream all day  
    And stay up all night  
    I know what your saying  
When you're not really talking right  
    Who are you fooling?  
'Cause I'm going forwards and  
    Looking backwards Virginia  
    I'm going forward  
And looking back West Virginia  
    You live you love you learn  
    You lose you gain  
And you know you'll never win  
    You can't even quit the game  
    You know you'll never win  
    You can't even quit the game

    You know you'll never win  
But you can't even quit the game  
    I know what your saying  
When you're not really talking right  
    And who are you fooling?  
    Who?  
'Cause I'm going forwards  
And looking backwards Virginia  
    'Cause I'm going forwards  
And looking back West Virginia  
    'Cause I'm going forwards  
And looking backwards Virginia  
    'Cause I'm going forwards  
And looking back West Virginia  
    'Cause I'm going forwards  
And looking backward Virginia

Cause I'm going forwards  
And looking back West Virginia  
West Virginia
