Man On Mir

Bell X1

She's like a stellar
She's got a fella
She knows Italian too
She just started driving youI know the man on Mir
I'd love to see what he can see
The black and grey that share his sleep
Alone, alone
Butterfly in cocoonI've lost my way
I want my way
To see the green and white and blue
See the Great Wall
See me and youI feel I know the man on Mir
I'd love to see what he can see
The black and grey that share his sleep
Alone, alone
