

Gluttony (Radio Edit)

Buckcherry

I get it started and then I get brokenhearted
Because I can't get a hold of the beast
It's like I'm blind, I'm running out of time
Everything I crave is out of reach You say I drink too much
You say I fuck too much
So what the hell am I supposed to do
I wanna die and kill my dirty mind, I want it, I want it, I want it, I want it
I need it, I need it, I need it, I need it
I love it, I love it, I love it, I love it
A gluttony on me has started. I take a dive and I medicate my mind,
'Cause I hate what I fucking see
It's all a grind, we're filling up our time with the rules of society You say I drink too much
You say I smoke too much
What the fuck am I supposed to do
I wanna die and kill my dirty mind, I want it, I want it, I want it, I want it
I need it, I need it, I need it, I need it
I love it, I love it, I love it, I love it
A gluttony on me has started.
I want it, I want it, I want it, I want it
I need it, I need it, I need it, I need it
I love it, I love it, I love it, I love it
A gluttony on me has started. Whoa whoa whoa oh
Whoa whoa whoa oh I want it, I want it, I want it, I want it
I need it, I need it, I need it, I need it
I love it, I love it, I love it, I love it
A gluttony on me has started.
I want it, I want it, I want it, I want it
I need it, I need it, I need it, I need it
I love it, I love it, I love it, I love it
A gluttony on me has started.
