DOA

BBC Radio 1's Live Lounge

Oh you know I did it, it's over and I feel fine
Nothing you could say is gonna change my mind
Waited and I wait at the longest night
Nothing like the taste of sweet decline
I was down, and I fell, I fell so fast
Dropping like the grains in an hourglass
Never say 'forever' 'cause nothing lasts
Dancing with the bones of my buried past
Never mind there's nothing I could do
Bet your life there's something killing you
It's a shame we have to die my dear
No one's getting out of here alive
This time
What a way to go, but have no fear
No one's getting out of here alive
This time
I'm finished, I'm getting you off my chest
Made you come clean in a dirty dress
A promise is a promise you kept in check
Hard to cross a heart that beats its best
Take a good hard look for the very last time
The very last one in a very long line
Only took a second to say goodbye
Been a pleasure, but the pleasure's been mine, all mine
Never mind there's nothing I can do
Bet your life there's something killing you

It's a shame we have to die my dear
No one's getting out of here alive
This time
What a way to go, but have no fear
No one's getting out of here alive
This time
Ain't no way, DOA
Ain't no way, DOA
Take a good hard look for the very last time
The very last one in a very long line
Only took a second to say goodbye
Been a pleasure, but the pleasure's been mine, all mine

Never mind there's nothing I can do
Bet your life there's something killing you
It's a shame we have to die my dear
No one's getting out of here alive
This time
What a way to go, but have no fear
No one's getting out of here alive
This time
It's a shame we have to disappear
No one's getting out of here alive
This time
This time
This time
