

# The Magic

## Icon for Hire

I'm tired of waking  
Only to numb back down  
Playing hide and seek with all my dreams,  
Will never find me now. Imagine the magic that might be under the madness,  
Between the mundane automatic and the silicone sadness  
O-oh  
Can you imagine the magic? Imagine the magic that might be under the madness,  
Between the mundane automatic and the silicone sadness  
Tragic  
Can you imagine the magic?  
When you close your eyes,  
Somewhere are we still alive?  
Oh, do you feel- do you feel like you're dead inside.  
When you close your eyes,  
somewhere does your heart still beat  
Or are you lost like me.  
When you close your eyes Imagine the magic that might be under the madness,  
Can you imagine the emotion that might be under the madness? What if I'm empty (What if I'm empty)  
What if there's nothing left (What if there's nothing left)  
Don't want to know the answer  
Would rather stay here anyway  
So I pretend like it's all I got  
Wo-o-oah  
While the hurricane inside my skin threatens that it's not  
Imagine the magic that might be under the madness,  
Between the mundane automatic and the silicone sadness  
Tragic  
Ooh, imagine the magic (the magic) When you close your eyes,  
Somewhere are we still alive?  
Oh, do you feel- do you feel like you're dead inside?  
When you close your eyes,  
Somewhere does your heart still beat  
Or are you lost like me?  
When you close your eyes Imagine the magic that might be under the madness?  
Can you imagine the emotion that might be under the madness? Bigger than you even know  
Brighter than you're lettin' on  
You don't like to let it show  
Can't hold back forever though  
Can't hold back forever though Bigger than we even know

Brighter than we're lettin' on  
We don't like to let it show  
Can't hold back forever though  
Can't hold back forever though When you close your eyes,  
Somewhere are we still alive?  
Oh, do you feel- do you feel like you're dead inside.  
When you close your eyes,  
Somewhere does your heart still beat  
Or are you lost like me?  
When you close your eyes  
When you close your eyes Imagine the magic that might be under the madness?  
Can you imagine the emotion that might be under the madness?
