Firecracker

Steel Train

Firecracker, you waved in the night
And something that I saw was a-flaming
Your body, it was real in the light
On the fourth of July we were screamingWell, I saw the lonely road
You left and said to me, don't follow
Cause I'll only bring you sorrow
And on down my lonely road
You left and I just said, no, no, no, no, no
All I said, no, no, no, no, noWell, I'm back in my old town again
Is there something still alive that I left here
Do you still like the boys on the street?
I will take you uptown just to see you meet themWell, I saw the lonely road
You left and said to me, don't follow
Cause I'll only bring you sorrow
And on down my lonely road
You left and I just said, no, no, no, no, no
All I said, no, no, no, no, noYou know I've been reading the Bible for a change
Maybe there's something I had missed there
I said, I've seen or I've seen some eyes in the rain
And they creep at my mind and I saw you whisperBut firecracker, you waved in the night
Something that I saw was a-flaming
Do you feel like we left something here?
Something worth coming back and claimingWell, I saw the lonely road
You left and said to me, don't follow
Cause I'll only bring you sorrow
And on down my lonely road
You left and said to me, don't follow
You sleep and dream for tomorrowAnd in the deadly night
You left and said to me, don't follow
'Cause I'll only bring you sorrow
And on down my lonely road
You left and I just said, no, no, no, no, no
Well, I said, no, no, no, no, no
