Everywhere I Go

Amy Grant

I was wasting time
Oh so sure to find somebody who'll never go
How could I know, none I'd found was true
None could be but You, the only one love divine
My heart, my mind are YoursEverywhere I go I see Your face through the crowd
Everywhere I go I hear Your voice clear and loud
Everywhere I go You are the light that I seek
Everywhere I go You have found meWhere could my heart go
Where You wouldn't know to find me?

Far, far from here

Still You are near to meEverywhere I go I see Your face through the crowd
Everywhere I go I hear Your voice clear and loud
Everywhere I go You are the light that I seek
Everywhere I go You have found meI have seen You in the evening
In the morining light You hold me
Closer than the air around me

You surround me alwaysEverywhere I go I see Your face through the crowd I hear Your voice clear and loud

You are the light that I seek

You have found meEverywhere I go I see Your face through the crowd Everywhere I go I hear Your voice clear and loud Everywhere I go You are the light that I seek

Everywhere I go You have found meEverywhere I go I see Your face through the crowd Everywhere I go I hear Your voice clear and loud

Everywhere I go You are the light that I seek

Everywhere I go You have found meEverywhere I go I see Your face through the crowd
Everywhere I go I hear Your voice clear and loud
Everywhere I go You are the light that I seek
Everywhere I go You have found me
