

# A Book Like This

## Angus & Julia Stone

Sun lights up the day time  
You light up my life  
The hand that calls you forward  
Is the hand that leaves me behind And I stand on the ocean shore  
Like an old black and white movie  
Love is tears, love is lost, again tonight Hold me, hold me tonight  
Hold me, hold me tonight Youve got a book like this  
To keep me alive  
And if its not a rainy day  
You simply don't go outside And you're tired of everything  
All of the girls and the boys  
And you're tired of everything  
All of your precious toys Hold me, hold me tonight  
Hold me, hold me tonight Sun lights up the daytime  
You light up my life  
The hand that calls you forward  
Is the hand, that leaves me behind Hold me, hold me tonight  
Hold me, hold me tonight
