Flights

Falling Up

They search, they light this place
A face of the fearless
To wait the night, it's calm
But you're starting to hear thisIt moves so fast, stops hearts
But holding on faster
Come back, like that
And you know thatYou will find that I'm everywhere you go
And I'm all the places you will not be
You will find that I'm everywhere you go
And I'm all the things that you wanna beIt leaves this light
This sparkles broken inside you

I swear it hides

Its siren's moving its way through This race we hear
The fall of the wind and the whispers

The take so clear

And you know that You will find that I'm everywhere you go
And I'm all the places you will not be
You will find that I'm everywhere you go
And I'm all the things that you wanna beConstantly moving
Your heart is just wasting away

Endlessly waiting

This life is just slipping away You will find that I'm everywhere you go

And I'm all the places you will not be
You will find that I'm everywhere you go

And I'm all the things that you wanna be You will find that I'm everywhere you go

All the places you will not be
You will find I'm everywhere you go

And I'm all the things that you wanna be
