

Better Off Inside

Hayden

Did you open your eyes when you first saw me?
Did you open your eyes when you first saw me?
First saw me It's funny how things make sense when you're lonely
It's funny how you want more when you're happy
I'm coming over, will you open the door for me?
I'm better off inside In your eyes, I see you in disguise
You're talking backwards, telling lies
Telling lies It's funny how things make sense when you're lonely
It's funny how you want more when you're happy
I'm coming over, will you open the door for me?
I'm better off inside
