

Cherry Tree

The National

Take us down and all apart
Cherry tree
Lay us out on the table
Your sharp alright But no one is asking so leave it alone
Leave it alone, can we?
No one is asking so leave it alone
Leave it alone, can we? Loose lips sink ships Don't look at me. I'm only breathing
Don't look at me, I'm indiscreet
Don't look at me. I'm only breathing
Don't look at me, I'm indiscreet Your sharp alright But no one is asking so leave it alone
Leave it alone, can we?
No one is asking so leave it alone
Leave it alone, can we? Loose lips sink ships Can we show a little discipline?
Can we show a little discipline?
Can we, can we? Loose lips sink ships Can we show a little discipline?
Can we show a little discipline?
Can we, can we? Loose lips sink ships
