

# Erase Me

## Ben Folds Five

What was our home  
Paper not stone  
A lean-to at most  
And when you pulled  
You're half awake  
Gravity won  
Like it always does  
Did I weigh a ton?  
Would it be easier to just delete  
Our pages and the plans we made?

Erase me  
So you don't have to face me  
Put me in the ground and mow the daisies  
Ah, the memory, see how it goes  
When you

Erase me  
Erase me  
So what will you do  
With no me for you?  
I know what we said  
But what if I left a thing or two  
We know that you don't seem  
To think about what you need  
'til you reach to find that you've

Erasered me  
What the fuck is this?

You're crazy, turned around  
In two weeks time replaced me  
Ah, the memory everybody knows  
How it goes you just

Erasered me  
Do me like a pro and taze me  
Fireworks - poof - it's gone, amazing

New bio, you've gone solo  
Drawing mustaches on our wedding photo

Erase me  
Erase me  
...Erase me...

Ahhh... [X1000}  
Erase me  
This is not shouting, baby  
Erase me  
Go on call the cops now, baby  
Ah, the memory everybody knows  
But the brand new hoe

Erase me  
And you'll never have to face me  
Erase me  
Option-Command-Escape me  
And if you feel nothing  
Guess what I wanna be  
Nothing
