

# Woman Woman

## AWOLNATION

Last night I fell apart  
Broke from my swollen heart  
Born in a simple time  
Raised with the simple mind You may be a natural woman  
You may be a natural woman  
You may be a natural woman  
You may be a natural woman I may be worthless without you  
I'll never decide to replace you  
Amen, the worst is behind us now  
(Woman, woman) Oh  
I may be worthless without you  
I'll never decide to replace you  
Amen, the worst is behind us now  
(Woman, woman)  
(Woman) You may be a natural woman  
You may be a natural woman  
You may be a natural woman  
You may be a natural woman Last night I fell apart  
Choked on my drunken heart I may be worthless without you  
I'll never decide to replace you  
Amen, the worst is behind us now  
(Woman, woman) Oh  
I may be worthless without you  
I'll never decide to replace you  
Amen, the worst is behind us now  
(Woman, woman)  
(Woman) You may be a natural woman  
You maybe a natural woman, you! (Ah) You (Ah) Who's that (Woman, woman)  
Is that (Woman, woman)  
Be my (Woman, won't you see me in the dark) Who's that (Woman, woman)  
Is that (Woman, woman)  
Be my (Woman, won't you see me in the dark) I may be worthless without you  
I'll never decide to replace you  
Amen, the worst is behind us now  
(Woman, woman) Oh  
I may be worthless without you  
I'll never decide to replace you  
Amen, the worst is behind us now  
(Woman, woman)

(Woman, woman) You may be a natural woman  
You may be a natural woman  
You may be a natural woman  
You may be
