Dead Raven Choir

Don't look sexy but it just feels right
Not too dirty and it's not too tight
Why I never threw it out
I'll never know exactly whyKeep it in the drawer beside my bed
It's faded pink now, but it used to be red
Starting to fray at the seams
But I know that you'll still love meLike you did, like you did
Like before, like before
Like we will, like we will
Be doin' it once moreOh baby know what you're like
You're like my favorite underwear
It just feels right, you know it
Oh baby know how you feel
You feel like my favorite underwear
And I'm slipping you on again tonightLeave you lyin' on the bedroom floor
I leave you hangin' on the bathroom door
Take you for granted
But I'll always know exactly where you areLost you once you were hard to find
Got you back you didn't look like mine
Thought we were falling apart
But you make me feel so prettyLike you did, like you did
Like before, like before
Like we will, like we will
Be doin' it once moreOh baby, know what you're like
You're like my favorite underwear
It just feels right, you know it
Oh baby, know how you feel
You feel like my favorite underwear
And I'm slipping you on again tonightSlipping you on again tonight
Wrap me and roll me, hold me tight
Tear me apart and make me new
Like you always doOh baby know what you're like
You're like my favorite underwear
It just feels right, you know it
You feel you're like this is what I want
You feel, you feelOh baby know what you're like
You're like my favorite underwear
It just feels right, you know it
You feel you're like this is what I want

You feel, you feelAnd I'm slipping you on again tonight
