

# Try Try Try

## Jamaram

if you got something that you just can't change  
and it seems to be real and it seems to be strange  
it might be time for you to rearrange  
if you're stuck in the mud there's only you to blame  
now the water just keeps creeping in  
get sucked down 'cause you can't swim  
what ever you do wow don't you give in  
you're drifting, floating, falling, sinking  
if you got money but your money can't buy  
shoes with wings that can send you fly  
birdy falls from heaven way up in the sky  
this little birdy's gotta try try try  
now the water just keeps creeping in  
get sucked under 'cause you just can't swim  
what ever you do wow don't you give in  
you're drifting, floating, falling, sinking  
yeah, you're drifting, floating, sinking  
drifting, falling, floating  
your're drifting, falling, sinking  
oooh, oooh  
oooh, oooh  
oooh, oooh, oooh, oooh, oooh  
now the water just keeps sinking in  
get sucked under 'cause you just can't swim  
what ever you do wow don't you give in  
you're drifting, floating, falling, sinking  
it's funny how somebody's got you screwed  
feet are nailed and glued and you just can't move  
it's funny how that somebody is you  
and you find nothing else 'cause there's nothing else to do  
if you got money but your money won't buy  
shoes with wings that can send you fly  
birdy falls from heaven way up in the sky  
this little birdy's gotta try try try  
if you got a honey but your honey ain't right  
burns you up inside keeps you up all night  
sometimes in love baby it just ain't high  
'cause there's nothing that's real there's nothing that's right
