All Over the World

All Over The World
Lyrics by Moran Levi / Music by Yevgeni Levin and Moran Levi

Good morning
Anew day for as in the car
The road seems endless
But nothing's too far

The skyline, the sunshine
The mountains, the sea
We're rolling together
We're young and we're free

All over the world together with you

The desert, the forest
The valley, the beach
We're breathing the nature
We're happy, we live

You kiss me, I'm smiling
It's us and the car
The road seems endless
But nothing is too far
