Sleep

General Fiasco

If I could sleep, sleep, sleep, sleep, sleep
Maybe that would clear my head, head, head, head, head
If I could talk, talk, talk, talk, talk, talk it over
Let my body leave the bed
If I could shake all this off

If I could keep, keep, keep, keep, keep, keep myself falling off the map again
If I could show you something that you never had
I've been rolling round for days
And all I need

Is sleep
Translucent I have become
I'm tired of getting it wrong
Don't let me out on my own

If I could sleep, sleep, sleep, sleep, sleep
Maybe that would clear my head
If I could show you something that you never had
I've been rolling round for days
And all I need

Is sleep
Translucent I have become
I'm tired of getting it wrong
Don't let me out on my own

I've been rolling round for days
And all I need

If I could sleep, sleep, sleep, sleep, sleep
If I could show you something that you never

Sleep
Translucent I have become
I'm tired of getting it wrong
Don't let me out on my own

I've been rolling round for days
And all I need

I've been rolling round for days
And all I need

Show you something that you never had
I'm tired of getting it wrong
Show you something that you never had
Don't let me out on my own

Show you something that you never had
I'm tired of getting it wrong
Show you something that you never had
Don't let me out on my own

Show you something that you never had
I'm tired of getting it wrong
Show you something that you never had
Don't let me out on my own
