

Human

Simple Minds

I'm Human inside, a hunter in chase.
I'm an exile, searching for the right place.
I'm Human inside, a hunter in chase.
I'm an exile, searching for the right place. Comfort me in words that matter
Please censor to me
Explanations always matter
The sense gets in to me
I've been thinking, contemplating
Words filter through
Digging deep I'm excavating
To see how you view me I'm Human inside, a hunter in chase.
I'm an exile, searching for the right place.
I'm Human inside, a hunter in chase.
I'm an exile, searching for the right place. Comfort me in tones that matter
Just give me something
Apologies and all that chatter
That's just the wrong thing
Let's crack this ice on which we're skating I'm Human inside, a hunter in chase.
I'm an exile, searching for the right place.
I'm Human inside, a hunter in chase.
I'm an exile, searching for the right place. I'm Human inside, a hunter in chase.
I'm an exile, searching for the right place.
I'm Human inside, a hunter in chase.
I'm an exile, searching for the right place.
