Stop Talking (So Loud)

Pitchshifter

Reflecting my time, not wasting a second,Exceptions aside, a favourite obsession,
forget 'what it takes' 'cause you can't keep us down.you're wasting your time if you don't make a sound.
Keep making mistakes, deflecting the pressureStop talking so loud, I can hear what you're sayingis what you're saying.Hold on for the ride, abuse and oppression,a small price to pay to be the land of the free.keep watching the skies, it's some kind of EscherStop talking so loud, I can hear what you're sayingIs what you're saying.
Sometimes we all say stupid things among our sins.We're taking our time, not wasting a secondStop talking so loud, I can hear what you're sayingis what you're saying.
