

# Pray

## Gamma Ray

So where we stand again  
Like dust on mother earth  
And we hide our faces in our dreams Only emptiness where angels flew - high on golden wings  
And the voice of god has vanished now - lost inside our dreams  
But the only way to go is heaven All we can do is pray  
In the darkness we stand with the world in our hands  
And we pray  
For a better tomorrow  
We wait Far beyond the horizon  
There's a sound in the sky  
The voice of glory I hear a silent cry  
When the heroes of yesterday are gone All we can do is pray  
In the darkness we hide and we wait for the light  
And we pray  
Oh we pray Let us pray [ Solo: Kai ] I've seen the darkside of the moon in my dreams  
Now I know it ain't a place to live for us all All our gods creation is dead and gone  
Now we stand like children all alone forever All we can do is pray  
Forever and forever and forever more  
For a better tomorrow - we wait pray  
There's a light in the dark  
And it shining so bright on our way  
Still there is hope on our way  
And we pray  
Oh, pray
