Long Island (feat. Kaye Kiernan)

Absinth3

Bigger Places Just getting colder
And all these cities I'm just feeling older When you're not around
Boy I see What you're trying to do
When you're in California
Do you think I can't see you
I found out you're more

What is life when I don't have you
And everyday feels like something new You're my Long Island

What is life when I'm not with you
And every moment is not rising without you You're my Long Island

Califonia

I love you
You say you love me
You say you care about me
You're a palm tree in my paradise

Ooh Aah (x2)ï»¿
